

Attached are 2 zip files which contain information that is very valuable in getting you started:

Race Application Templates: You can select any of the ones attached and type your information over theirs. Be sure to change EVERYTHING on the app to reflect YOUR information. The font sizing and type, plus the award categories, prices, etc is what the ORIGINAL race used; feel free to change whatever you wish to change!

Race Sponsorship Templates and Approached: These attachments show you what other races have given at varying levels of sponsorship. You can use these as a guide over what YOU want to do. Some of them, you can even change the headings and wording to make your own, with minimal editing. Again, you are NOT confined to doing what THEY did. Be aware that different areas can attract differing levels of sponsorship. What is an average for Bucks Co is NOT what you would seek in Schuylkill Co. The most comprehensive of these is the Jaret Yoder template.

Read these when you get the time. Historically, these are 2 of the very first items you should develop for your race.
