

We are always big advocates of using local sources for your race supplies. However, because of the volume they do, many local award providers cannot come close to matching the prices of online sources that produce millions of awards each year.

One such provider that we have used successfully on several occasions is Crown Awards

They have a HUGE variety of awards, medals, dogtags, etc. at VERY competitive prices. You can get a very generic medal there for anywhere from \$1.25 to 2.25 and even get a nicer medal customized for the gender, age group and place for as low as \$3.25.

To see the types of medals we use on some occasions, once on the site, click on the link for medals/dogtags. When we have ordered them, we normally get delivery in less than 1 week from the time of order.

At the very worst, you can determine a price thru this site and then take that price back to your local provider to try to give you leverage in negotiating a lower price from them.
